

Equipping Parents With Data to Make Informed Education Decisions

Panorama Surveys and Engagement is the leading K–12 platform for district and state survey needs, offering everything from benchmark surveys to pulse checks. By providing a central place for districts and states to collect and analyze student, family, and educator feedback, Panorama equips school systems and state departments of education with reliable, actionable data on factors that are critical to student achievement.

From addressing school safety, teacher retention, and chronic absenteeism to boosting family and student engagement, **Panorama’s 360° surveys enable communities to make informed decisions.** With tools for sharing anonymized survey results publicly and longitudinal data analysis, Panorama allows districts and states to support parents and families in choosing the right learning environment for their children.

Key Benefits of Panorama’s 360° Surveys

Gather feedback at scale

Measure school climate, school safety, teacher retention, student and family engagement, and more with research-backed surveys.

Share survey results with your community

Make anonymized data from your student, teacher/staff, and family surveys accessible to all.

Engage parents and families

Encourage parents to use the survey insights to make informed education decisions for their children.

Create custom survey questions

Select topics and scales from Panorama’s bank of questions, or run your own survey content in the Panorama platform.

Gather longitudinal data

View your district’s or state’s survey results across multiple administrations for long-term school comparison and measuring improvement.

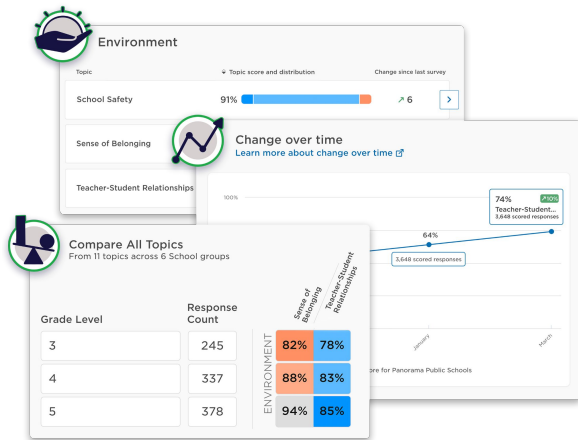

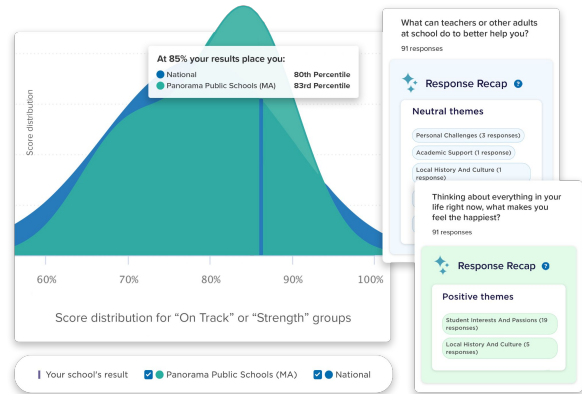

Track results across all schools or statewide

Monitor and publish survey results across all types of schools (public, private, charter).

360° Surveys: Actionable Insights for Parents, Districts, and States

Publish anonymized survey results

Share survey results to foster transparency and build trust within your community. Panorama's platform makes it easy to share insights on school climate, safety, engagement, and more—empowering families, educators, and leaders to work together toward meaningful improvement.

Track progress over time

Use Panorama's platform to analyze trends and measure growth with longitudinal change-over-time data. Whether tracking improvements in engagement, safety, or teacher retention, Panorama helps districts and states make data-informed decisions that drive sustained progress.

Trust that survey data is secure

Districts and states can confidently rely on Panorama to safeguard sensitive information with our secure infrastructure for data collection, analysis, and reporting. Panorama is SOC 2 compliant, complies with FERPA, PPRa, and COPPA and is a member of the Student Data Privacy Consortium.
