

# Strengthening Career and Technical Education Using Perkins V Funds

## What is Perkins V and how does it align with Panorama?

The Strengthening Career and Technical Education for the 21st Century Act (Perkins V) became law on July 31, 2018. This bipartisan measure reauthorized the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV). It continued Congress' commitment to providing career and technical education (CTE) programs for our nation's youth and adults.

**At Panorama, we partner with school districts and states to provide supports aligned to career and technical education.**

### Panorama Pathways

Simplify graduation tracking with automation that instantly identifies transcript, schedule, or pathway errors. Efficiently monitor multiple paths aligned to your district requirements.

### Student Success

Unify academic, attendance, and behavior data for a complete view of your students. Leverage intervention workflows and collaboration tools to support every student effectively.

### Stakeholder Surveys

Collect reliable feedback from students, families, teachers, and staff about school climate, employability, safety, engagement, relationships, and needs assessments.

## Using Panorama To Align With Perkins V Implementation Plans

### Monitor Graduation Progress

Automate transcript and schedule analysis against graduation requirements and CTE pathways. Filter and batch work for more efficient processing.

### Comprehensive Local Needs Assessment

Customize the Surveys platform to create a needs assessment, seek stakeholder consultation, and gather feedback from students, educators, and families.

### Identify Students Needing Support

Explore student insights with intuitive Student Success dashboards to help close performance and enrollment gaps and ensure real-time support.

### Meet Perkins Accountability Measures

Use reporting dashboards to ensure compliance with Perkins V performance indicator requirements and enhance program effectiveness.

### Program of Study

Monitor academic progress, implement and monitor targeted interventions, and meet the requirements of CTE pathways.

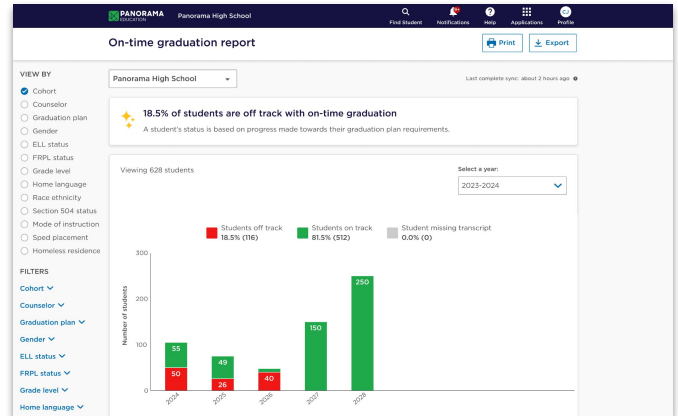

### Middle School Support

Track high school credits and career pathways for middle school students with Panorama Pathways, ensuring they stay on course for future success.

# Support CTE Pathways with Automated Tracking

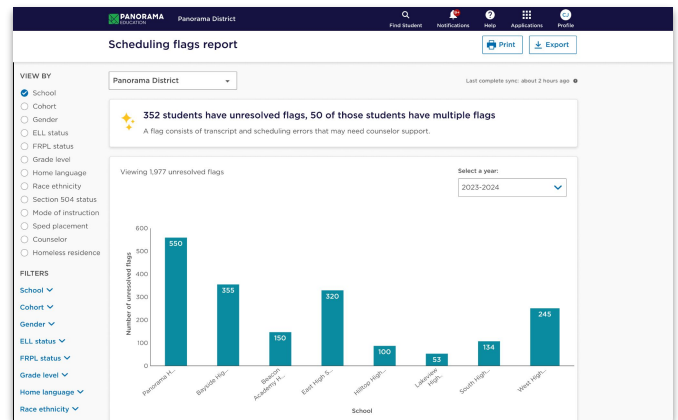

## Gain critical insights with district, school, and student reporting

Easily monitor student progress and build strategic plans with district, school, and student reports detailing on-time graduation, CTE, and scheduling errors. Filter data by criteria like counselor, ELL status, and more to identify trends, guide each student's unique journey, and drive student success.

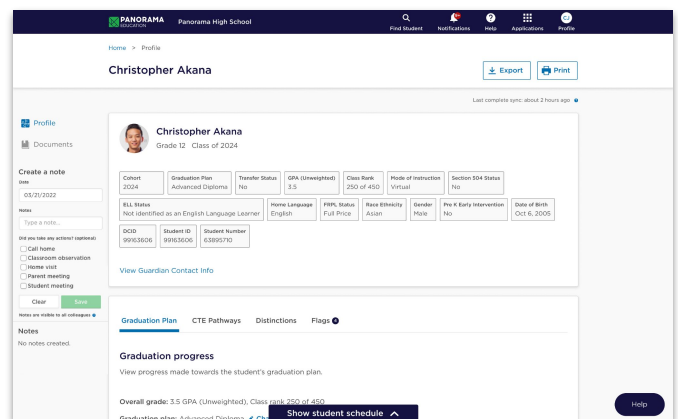

## Increase efficiency with automated error reporting

Spend less time on paperwork and auditing student records. Panorama Pathways automatically detects discrepancies in transcripts, class schedules, and errors against your district's unique graduation and CTE requirements. Identify and support off-track students in real time with district-, school-, and student-level reports updated daily.

## Ensure accurate data at your fingertips

Centralize all your student data. Panorama Pathways integrates with 20+ student information systems and assessments so you can access up-to-date transcript data, schedules, and state-required assessment data daily.
